**Subject:** RE: Application for CE Provider Approval in IN

According to 864 IAC 1.1-15-5, certain courses are automatically approved by being approved by an approved organization under IC 25-1-4-0.2 assuming the subject matter of the course is acceptable under this rule by being designed to directly enhance the practitioner's knowledge and skill.

With being said you are not required to submit an application to the board.

**Subject:** Application for CE Provider Approval in IN

Dear Ms. Heard,

I am interested in obtaining approval from the IN Board for our organization, "Continuing Education and Development, Inc." as an online continuing education provider for professional engineers. We have launched our continuing education program in June of 2006. Today we have approximately 450 online courses to offer professional engineers nationwide and abroad. This number does increase on monthly basis. We have also been pre-approved by all 4 states requiring CE Provider pre-approval.

In browsing through your website, I noticed that the application requires the approval of courses as opposed to the continuing education entity itself. With 450 courses at hand and increasing as we go, is there another provision of approving providers with a large volume of courses? Otherwise this will require attaching 450 pages of "...descriptive course content outline..." (one for each course) as requested in Item 1 of the application. Perhaps one way of doing it, with your permission, in addition to indicating the name of the course and number of hours associated with it, we can include the website link for each course to reference the "...descriptive course content outline..." rather than attaching every single one.

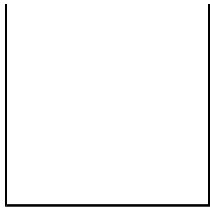

Please take a look at the website: [www.cedengineering.com](http://www.cedengineering.com) then click on any of our course listings on the top left to get a sense of our program. Kindly, let me know your thoughts on this and if you require any additional information.

Thank you for your time in advance and I look forward for your advice on this matter.

Regards,

Gil
